UNITED STATES DEPARTMENT OF AGRICULTURE

DIRECTOR OF EXTENSION WORK

WASHINGTON, D. C.

Circular Letter,
Rural Electrification/- No. 1

June 15, 1935

TO STATE EXTENSION DIRECTORS:

Re: Plans for Rural Electrification.

The enclosed letter from Mr. Morris L. Cooke, Administrator of the Rural Electrification Administration, will undoubtedly be of interest to all extension workers, who can be of considerable help to farmers who wish to utilize the electrical advantages that will be provided through the extension of rural electric lines. The letter gives such information as is available at the present time concerning the service that will be provided by the Rural Electrification Administration, outlines the requirements for obtaining this service, and lists the data that should be supplied by groups of farmers who desire to have electric lines extended into their areas. It is requested that this information be supplied to farmers who are located in areas not now served by electric lines.

Copies of this letter and the enclosure are being sent to your county agent and home demonstration supervisors, to county agricultural and home demonstration agents, to specialists in agricultural engineering and home management, and to extension editors.

Very truly yours,

A handwritten signature in cursive script that reads "C. W. Warburton".

C. W. Warburton
Director of Extension Work
